government

SENIOR CONSULTANT - WORK PSYCHOLOGIST

10 years of experience in Human Resources in the Grand Duchy of Luxembourg. My heterogeneous professional career in this field allows me to have a complete view as well as a great adaptability and agility.

I strive at making **people speak** as **freely** as possible because when I do, I can genuinely understand why they **feel engaged** in their **professional role** as well as in society. For me it takes what boxing teaches me: willingness, determination and strategy – to help them **make the right choice**"
